

Education

H.B.Sc., University of Toronto

2018-2022

Astronomy & Astrophysics, Statistics, Mathematics. Dean's List Scholar.

Publications

2. **Jeff Shen**, Gwendolyn M. Eadie, Norman Murray, Dennis Zaritsky, Joshua S. Speagle, Yuan-Sen Ting, Charlie Conroy, Phillip A. Cargile, Benjamin D. Johnson, Rohan P. Naidu, Jiwon Jesse Han. The Mass of the Milky Way from the H3 Survey, submitted to ApJ.
1. **Jeff Shen**, Allison W. S. Man, Johannes Zabl, Zhi-Yu Zhang, Mikkel Stockmann, Gabriel Brammer, Katherine E. Whitaker, and Johan Richard. Molecular gas in a gravitationally lensed galaxy group at $z = 2.9$. 2021, ApJ, 917, 79. [2105.11572](https://arxiv.org/abs/2105.11572).

Research Experience

2021 Sep - Present	Undergraduate Research Course <i>Department of Astronomy and Astrophysics, University of Toronto</i> Supervisor: Prof. Roberto Abraham Software and hardware for the Dragonfly Telephoto Array.
2021 Jul - Present	Independent Research Supervisors: Prof. Norman Murray Using Stan to fit dynamical models to geological data from thermal tides to estimate the length of day.
2021 May - Present	Independent Research Supervisors: Dr. Josh Speagle Probabilistic predictions of stellar ages with normalizing flows. Quantifying the contribution of stellar and Galactic information to age estimates.
2021 May - 2021 Aug (Continued work until present)	Undergraduate Summer Research Fellowship <i>Canadian Institute for Theoretical Astrophysics</i> Supervisors: Prof. Gwendolyn Eadie , Prof. Norman Murray , Dr. Josh Speagle Continued work on the mass distribution of the Milky Way. Collaborated with members of the H3 Survey and submitted a first-author paper to ApJ.
2020 Aug - 2021 May	Undergraduate Research Course <i>Canadian Institute for Theoretical Astrophysics</i> Supervisors: Prof. Gwendolyn Eadie , Prof. Norman Murray Developed a hierarchical Bayesian model for modelling the mass of galactic halos using a fast and scalable sampling algorithm.
2020 May - 2020 Aug (Continued work until May 2021)	Summer Undergraduate Research Program <i>Dunlap Institute for Astronomy and Astrophysics, University of Toronto</i> Supervisor: Prof. Allison Man Analyzed ALMA data to infer molecular gas masses in several gravitationally lensed high-redshift galaxies. Presented results in a first-author publication in ApJ.

Presentations

2021 August	SDSS 2021 Collaboration Meeting, JHU/Online Lightning talk: "Predicting the ages of stars with machine learning."
2021 May	Stellar Stats Workshop, UofT/Online Lightning talk: "Estimating the mass distribution of the Milky Way with Bayesian multilevel models."

2021 May	Canadian Astronomical Society (CASCA) AGM, NRC Herzberg/Online Poster presentation and lightning talk: “Molecular gas in a gravitationally lensed galaxy group at $z = 2.9$.”
2021 Apr	Vancouver Area Cosmology Meeting, UBC/SFU/TRIUMF/Online Talk: “Molecular gas in gravitationally lensed galaxies at $z = 2.9$.”
2020 Oct	REQUIEM Galaxies Telecon, Online Talk: “Molecular gas in gravitationally lensed galaxies at $z = 2.9$.”
2020 Aug	Summer Undergraduate Research Program Poster Session, UofT/Online Poster presentation: “Molecular gas in a gravitationally lensed galaxy group at $z = 2.9$.” Awarded prize for one of top three posters.

Honours and Awards

2021 May - 2021 Aug	Undergraduate Summer Research Fellowship, (\$8,396 CAD)
2020 May - 2020 Aug	Summer Undergraduate Research Program Award (\$9,500 CAD) Dunlap Institute for Astronomy and Astrophysics, University of Toronto

Selected Projects

- Comprehensive scientific computing package for Rust: linear algebra, statistics, numerical optimization, linear models, and more. github.com/al-jshen/compute
- Zero-dependency reverse-mode automatic differentiation package. github.com/al-jshen/reverse
- Fast and easy random number generation in Rust with Wyrand. github.com/al-jshen/alea
- Parallelized ray tracer for realistic scene rendering. github.com/al-jshen/traycer

Media

2021 Jul	National Radio Astronomy Organization (NRAO) eNews Digital newsletter feature: “Molecular gas in high redshift galaxies”. https://science.nrao.edu/enews/14.7/index.shtml#molecular_gas
2020 Jul	SURP Student of the Week Feature Interview: https://www.dunlap.utoronto.ca/surp-sow/sow12020/

Outreach

2019 - Present	Space Science Journalist (Current in Space segment) , <i>The Star Spot</i> podcast Curate, write and record stories about the latest research and news in astronomy. Episodes 177 - present.
----------------	--

Volunteering

2015 - 2018	Python Workshop Lead , Sir Winston Churchill Secondary, Vancouver, B.C. Coordinated and delivered workshops to prepare students for national programming contest.
-------------	---

Technical Skills

Data: Stan, Pyro, Pytorch, NumPy, SciPy, Pandas, Scikit-Learn, Matplotlib, SQL, R

Other: Rust, BLAS/LAPACK, Astropy, L^AT_EX, regex, bash, git, Docker, AWS, Javascript, React
